

Thank you for Purchasing and downloading Cyclone Conversions.

Please keep in mind you do not have any resale rights or giveaway rights of any kind for this product.

JEREMY GATICA PRESENTS

CONVERSION CYCLONE

ONLY ON WARRIORFORUM

AN OUTSTANDING SPECIAL OFFER

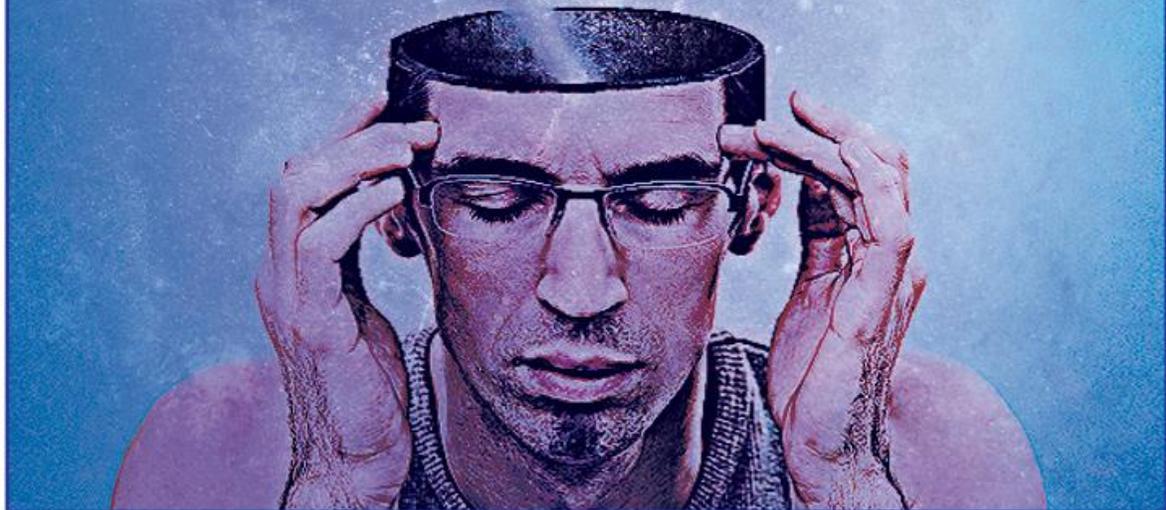

SIMPLE PROFITS

GATHER INTEL & DELIVER CONTENT
AND PASSIVELY MAKE SALES

CONVERSION BOOSTER

INCREASES YOUR SALES WITH A SIMPLE
3 STEP SUBSCRIBER PROCESS

TURN YOUR LISTS INTO A CYCLONE
OF PROFIT PULLING POWER!

Now let's get right into to what the system is and what kind of power Cyclone Conversions has.

Quite simply you create a poll that has 5 choices for your subscribers to choose from.

The Page will look like so:

I Want To Give You The Best Information Possible, What Would You Like More Information On?

Landing More Offline Clients

Using Facebook Fanpages Effectively For Clients

Templates (wordpress) you can use for clients

Mobile App Marketing Strategies

Online Traffic Generation For Your Offline Clients

MATERIAL CONNECTION DISCLOSURE: You should assume that the owner of this site has an affiliate relationship and/or another material connection to the providers of goods and services mentioned in this message and may be compensated when you purchase from a provider. You should always perform due diligence before buying goods or services from anyone via the Internet or offline.

Once the visitor has picked an option and hit continue they would then get redirected to another page, for example say they picked the first option "Landing More Offline Clients" then the page they get redirected to would like like so:

[Download Report Name Here](#)

The screenshot shows the Warrior Forum website. At the top, there is a yellow banner with the text "Download Report Name Here". Below this, the forum header includes the Warrior Forum logo, a newsletter sign-up form, and navigation links. The main content area displays a forum post titled "(Offliners) -- 83.3% Conversion Ratio2000+ sold -- WSO of the Day". The post content includes the text "*****2222+ Copies sold*****" and "WSO of the Day -- Monday September 27". A large red headline reads "How A Desperate Deadbeat Debt Collector - Just Looking For A New Job - Stumbled Across The Highest". The user profile for "donaldwilson" is visible on the left side of the post.

As you can see in the redirect screen shot above, there is a yellow bar with a download link for a free report or any other information product related to the choice given, also there is a wso offer related to the choice.

Can you see what is happening yet?

You simply have some choices to find out what your subscribers are most interested in and then you give them that information through a free download and an optional offer.

The CC system also sends an email of the result to an email on your hosting say something like this

poll@yourdomain.com

To further narrow down what your readers want you take the top 3 answers and create another poll with the same setup only with 3 choices. This will narrow down your niche research even more.

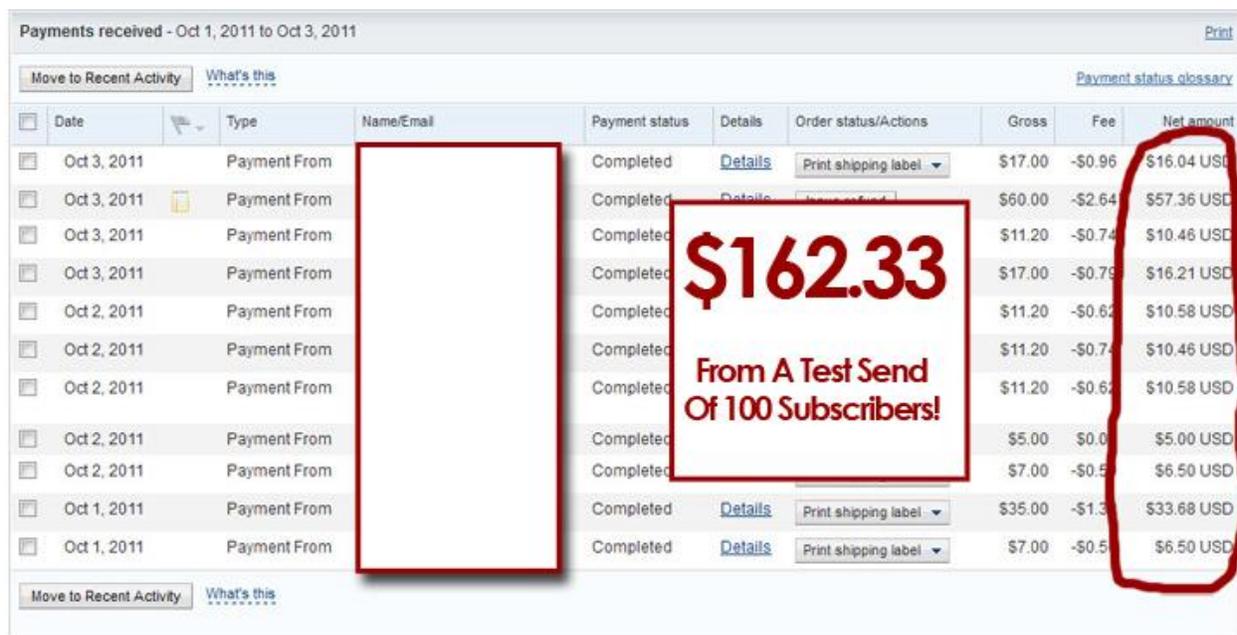

Finally you would have a final poll with the top 2 answers from the second poll and what you end up with is a highly targeted niche topic that

you can then create a product that will definitely be in demand for your readers.

Can you see how powerful this system can be?

You could use this system once a month and create a new product every month, while doing niche research and creating sales passively.

When I first tested the system out I only sent to a list of 100 people, and over a 3 day period check out the sales I made:

The screenshot shows a table titled "Payments received - Oct 1, 2011 to Oct 3, 2011". The table has columns for Date, Type, Name/Email, Payment status, Details, Order status/Actions, Gross, Fee, and Net amount. A red box highlights the "Net amount" column, and a callout box displays the total sales of \$162.33.

Date	Type	Name/Email	Payment status	Details	Order status/Actions	Gross	Fee	Net amount
Oct 3, 2011	Payment From		Completed	Details	Print shipping label	\$17.00	-\$0.96	\$16.04 USD
Oct 3, 2011	Payment From		Completed	Details	Print shipping label	\$60.00	-\$2.64	\$57.36 USD
Oct 3, 2011	Payment From		Completed	Details	Print shipping label	\$11.20	-\$0.74	\$10.46 USD
Oct 3, 2011	Payment From		Completed	Details	Print shipping label	\$17.00	-\$0.79	\$16.21 USD
Oct 2, 2011	Payment From		Completed	Details	Print shipping label	\$11.20	-\$0.62	\$10.58 USD
Oct 2, 2011	Payment From		Completed	Details	Print shipping label	\$11.20	-\$0.74	\$10.46 USD
Oct 2, 2011	Payment From		Completed	Details	Print shipping label	\$11.20	-\$0.62	\$10.58 USD
Oct 2, 2011	Payment From		Completed	Details	Print shipping label	\$5.00	\$0.00	\$5.00 USD
Oct 2, 2011	Payment From		Completed	Details	Print shipping label	\$7.00	-\$0.50	\$6.50 USD
Oct 1, 2011	Payment From		Completed	Details	Print shipping label	\$35.00	-\$1.32	\$33.68 USD
Oct 1, 2011	Payment From		Completed	Details	Print shipping label	\$7.00	-\$0.50	\$6.50 USD

\$162.33 in sales over 3 days is not to bad now is it?

So how do you set this system up? It is as easy and copy and pasting and changing some details.

Let's start with the redirect options, you find the following code in the head section on testpage.html:

```
if (box.OPTION[0].checked)
```

```
box.redirect.value="http://jeremygatica.com/poll/test1.html";
```

```
if (box.OPTION[1].checked)
```

```
box.redirect.value="http://jeremygatica.com/poll/test2.html";  
if (box.OPTION[2].checked)  
box.redirect.value="http://jeremygatica.com/poll/test3.html";  
if (box.OPTION[3].checked)  
box.redirect.value="http://jeremygatica.com/poll/test4.html";  
if (box.OPTION[4].checked)  
box.redirect.value="http://jeremygatica.com/poll/test5.html";
```

Simply change the links in blue to correspond with the redirected pages as you can see they are named option0, option 1, etc.. these correspond to the poll questions 0-4

Next thing you want to change is the process for sending formmail its in this line in the body of the page: (simply google for your hosting companies formmail procedure or check with your hosting company, I am setup on hostgator)

```
<form action="http://jeremygatica.com/cgi-sys/formmail.pl" name="box"  
method="POST" >
```

```
<input type="hidden" name="recipient"  
value="jeremyg@jeremygatica.com">
```

```
<input type="hidden" name="subject" value="Poll 1">
```

```
<input type="hidden" name="redirect" value="">
```

```
<p><input type="radio" name="OPTION" value="0">Landing More Offline  
Clients</p>
```

```
<p><input type="radio" name="OPTION" value="1">Using Facebook  
Fanpages Effectively For Clients</p>
```

```
<p><input type=radio name="OPTION" value="2">Templates  
(wordpress) you can use for clients</p>
```

```
<p><input type=radio name="OPTION" value="3">Mobile App  
Marketing Strategies</p>
```

```
<p><input type=radio name="OPTION" value="4">Online Traffic  
Generation For Your Offline Clients</p>
```

```
<p align="right"><input type="submit" value="CONTINUE"  
onClick="validateForm(box); return true;"></p>
```

```
</form>
```

The sections in blue are what you want to change for your domain and your email that the info gets sent to.

The sections in red are the topics they can choose from.

Next let's setup the redirect pages.

Using the first choice as an example the redirect points to test1.html

So in test.html in the body you will see the following section:

```
<h3><a href="http://test.com">Download Report Name Here</a></h3>  
</div>
```

```
<iframe style='width: 100%; border:none; height:800px;'  
frameBorder='0' id='iframe'  
src='http://www.warriorplus.com/linkwso/zsk3p8/771'></iframe>
```

Change the blue to the location of the related download gift.

You can also change the text in red to whatever you choose for the gift.

Next the link in green can be changed to your affiliate link or to a site of your own.

You would repeat this process for each of the remaining redirect pages.

Then simply upload all pages to a destination on your hosting and send your subscribers to the page.(for example domain.com/poll/ where you create a poll folder) You can of course change the page names to what you want.

Use your imagination when using this system it's a great low cost way to survey your customers and subscribers.

Enjoy

Jeremy
