

CPA Machine

Thank you for picking up a copy of this RSO. This report will focus on one thing only and that is making deadly cash from CPA by using innovative methods.

In this report I am going to reveal to you a simple, powerful method of making CPA cash by using the power of domain names.

These methods will not get you banned or will not get you in trouble. The only investment you will need to make is purchase the domain names.

I also need you to make sure that you are a member of at least several CPA Affiliate networks before you start.

Before I get into the meat of this report please make sure that you have a website so you can get accepted to CPA networks. I am sure you know the basics of getting accepted as without a website CPA networks won't allow you to promote their offers.

Make sense? Great. Lets continue, shall we? 😊

Using "Popular" Domain Names

Domain names have always been popular online. People either buy domain names to "buy and sell" later on for a profit or some people make money by domain names by "squatting" – also known as "Cyber Squatting".

The best domain names to purchase are the ones that are going to be generating a lot of searches online.

For example, the Iphone 5 is going to be released soon and I will expect a surge of Iphone 5 domain names to be snapped up.

If something is generating a lot of attention in the media then there will be a surge of interest and as a result domain names are going to be snapped up.

For example, I own several domain names of high profile celebrities and the best way to go about cashing in on these domain names is to set up simple "one paged" CPA Machine sites!

What are CPA Machine websites?

These sites are simply sites that are going to be leveraging the domain name and the number of searches the domain is going to be generating.

For example, take a look at the following domain name.

CraigColton.co.uk

Craig Colton is an upcoming singer on the British music competition the X Factor.

He is likely to be generating a ton of searches as people are going to want to find out more about him.

I happen to own this domain name as I had read a few articles about him prior to the show going on air the day before.

I then managed to create my CPA Machine page.

As you can see I have cleverly created this page by using the main keywords on this page and if you scroll down on this page there is an article for this celebrity (make sure the article is unique, as it is going to be important for search engines).

You can also see that I have used several call to action features on this page.

For example, I have included an opt in page on the page so that I can capture email addresses.

It is entirely up to you if you wish to capture email addresses but I find that once you have a ton of emails in your Auto responder you can simply send an email, the next day, to the person and include

your CPA offer so they can “Qualify” for their free gift.

I have included a copy of this template inside the report so you won’t need to worry about creating it yourself.

You should also notice I have added an extra field on the opt in page – a field where they can enter their code. Remember we want to make the page as professional as possible in order to leverage the “current buzz” surrounding the celebrity.

So how do you go about in finding good domain names so you can leverage the current buzz?

Well I use a number of different methods.

I tend to keep a look out for news articles on reality shows that are taking place, live events, sporting events and other competitions such as X Factor or American Idol.

The best thing to do is browse Google news and type in keywords on upcoming celebrities.

You can also browse Google Trends - <http://www.google.com/trends> to see what kind of things people are typing on the search engines.

This is just one type of landing page you can use.

The other type of landing page is more powerful and tends to convert better.

These type of landing pages are “poll types” of landing pages and these can also make you a lot of money.

For example, take a look at the page below.

Yes

No

You can see this invites a person to answer yes or no. Once they click on either link they will then be redirected to a CPA offer – for Iphone 4 that requires a simple zip submit.

The key to success in poll pages is to get them on the first page.

This is what I usually do.

- Buy a bunch of high profile domain names of popular celebrities that are going to be generating a lot of interest and searches.
- Create a Poll type of page and link it to a CPA offer
- Promote the page by adding content and using tools to get it on the first page on Google.

Because your domain will be keyword rich you will need to make sure that your page has content that is unique and contains the main keywords for your celebrity.

I usually also optimise for "images" also. For example, using the ALT text feature you can also make sure that the image you use for your celebrity contains the main keywords. Images for your celebrity will always end up appearing on Google images as there are going to be people who are going to be searching for images for your celebrity.

This is the text for Google images you need to use as HTML.

```

```

Make sure your file name contains the main keyword of your image and the alt text also contains the main keyword.

Getting on the first page of Google to rank for your domains is pretty easy.

Simply head over to Fiverr and make sure you use the following Gigs. These Gigs are hands down the best Fiverr Gigs that will get your pages ranked fast on the first page.

<http://fiverr.com/messageinbox/provide-200-social-bookmarking-links>

<http://fiverr.com/getmybacklincks/setup-link-wheel-for-your-page-be-on-the-first-page-in-google-search-in-1-month>

<http://fiverr.com/aaditi/give-30-diggs-30-stumblepons-for-any-siteblogvideo-in-24hrs-manually-from-30-different-unique-user-ids>

<http://fiverr.com/mikemeth/spin-and-submit-article-to-over-1200-article-directories-article-submission>

<http://fiverr.com/sleaklight/submit-your-article-to-over-2000-article-directories-with-article-marketing-robot>

These gigs are a combination of article marketing and social bookmarking gigs and are enough to get your page ranked on the first page of Google.

The key to this method is to make sure your domain name is going to be getting a ton of searches and is keyword rich.

This strategy is good for simple zip submit CPA offers since you can set a bunch of these pages and leave them so they make you money on complete Autopilot.

In the next section I am going to share another powerful CPA method I use which is totally unrelated with this strategy.

This report is those 2 in one special reports so you are getting value for money 😊

Shall we continue with the next section? Fantastic!

URGENT UPDATE: Recently this work at home opportunity has received

This landing page is pretty attractive and all the person needs to do is enter their details in order to get their “business kit”.

So how would one go about promoting these CPA offers using FREE CDs?

Again, the answer lies in PLR 😊

Simply find a cheap PLR report on how to make money online – and simply copy and paste the first 2-3 pages of the article or e-book and create a PDF.

I have provided an example document PDF you can use for this method.

Here is a sample of my report that I am going to burn on my CD.

As you can see after the content I have included a CPA offer at the end of the short report that will take people to my CPA offer. Is this strategy clever or what?

Just Follow These Three Easy Steps To Make Money By Posting Links From Home...

As you can see I have made sure I have included a call to action feature at the end of the report. The people who are going to be grabbing this FREE CD

are all wanting to quit their job so its best to direct them to a CPA offer that pays over \$40-\$50.00.

You would need just 2-3 sign ups a day to make \$100-\$200 a day from this strategy.

People spend lots of money on work from home products and they would want a way out from their day job.

You could even buy a PLR offer, rebrand it with your own graphics and direct people to your Paypal link and charge them \$47.00 😊 Instant cash at your disposal!

I suggest you burn the PDF onto CD. Burning your PDF is straight forward. All you need is CD Burning software.

You can use an Open Source Burning software.

<http://infrarecorder.org/>

You will also need to burn your PDF onto some cheap CDs. You can buy a ton of cheap blank CDs from eBay for as little as \$9.99.

Once you have burnt your PDF onto your CD the next thing you need to do is find places online where you can advertise your FREE Cds.

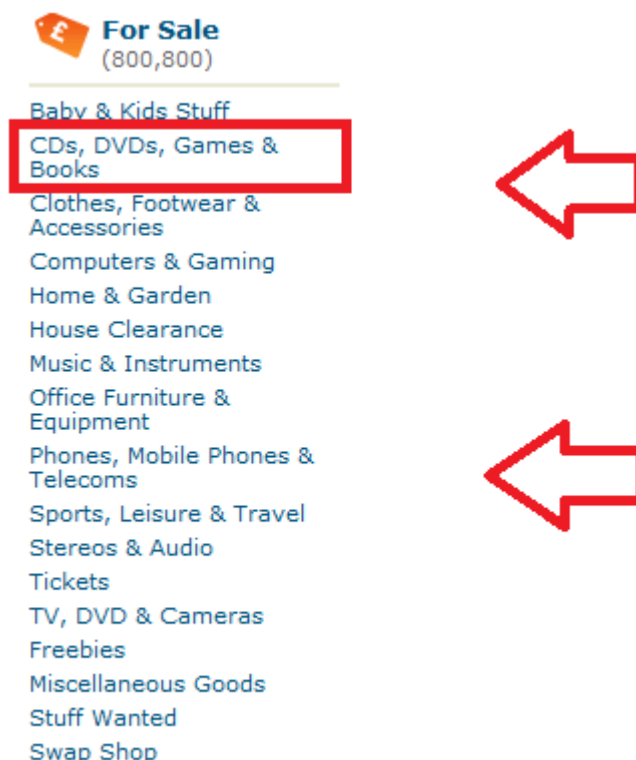

Here are some of the best places online you can use to promote your FREE CD offer.

Tip:

Before you do this system make sure your CPA offer is directed at the UK or US market or whichever market you are going to be aiming at.

So for example, if I am going to be aiming at the UK market then I am going to focus on UK classified ads – where there are mainly traffic from the UK.

Gumtree.com for me is good for UK market since I can advertise my services there in the relevant section.

As you can see there is a CD section on Gumtree.

Or you can use the Freebie section on Gumtree - <http://www.gumtree.com/freebies> to post an ad like this (see below).

Here is an example of an ad I would post.

*Title of Ad – FREE CD – Work from Home
Legitimate Business – Get Started in 3 EASY Steps!*

Hi, Guys.

I am giving away a FREE CD to the first 100 people only who reply to this ad. This offer is available to the first 100 people only so you will have to hurry up.

In this CD I am going to show you how I quit my call centre job and now make money on the Internet.

If you are interested simply send me an email to [[your email address] or reply to this ad and give me your postal address so I can ship this CD out to you".

Now imagine the number of people who would be interested in a FREE CD that solves their problems?

You can also place this type of ad on your signature through forums that target students.

I know students are always broke but even if you manage to get 2 sign ups a day that is around \$100 in your CPA account.

Here is an excellent student forum you can use.

<http://www.thestudentroom.co.uk/forums.php>

[Craigslist](#) is also excellent when it comes to posting an ad. As long as you keep your ad short and sweet and do not post any URL links your ad will stay there.

If you are promoting to the US market then craigslist is the best option.

Here are other sites you can use.

<http://www.usfreeads.com/>

<http://www.backpage.com/>

<http://www.ebayclassifieds.com/>

If you want you could experiment with flyers and local newspaper advertising. People love responding to free offers and by giving away FREE CDs with your CPA offer inside the PDF you are most likely

easy to make \$100 a day (with the right CPA offer of course!).

You can also sell your CDs on Ebay for cheap. For example, you could charge people \$0.99 for the CD at the front end and cash in from the backend when people sign up to your CPA offer after downloading your PDF.

CDs are generally perceived to have a higher value as opposed to online reports or guides.

You can also use a site called [Ioffer](#) to sell your CDs.

You can also make money by promoting simple Zip offers on CDs using the same method. People would only need to enter their email address for you to get paid.

FREE CDs would also appeal to business owners. Business owners are always eager to market their business effectively. Is there an offer online you can target to local business owners?

Is there a CPA offer that targets business owners and pays \$40.00?

I am sure I have your brain thinking now!

There are also CPA offers you can use that are targeted towards people who are looking for a job.

Generally, these people will hang out on recruitment websites online.

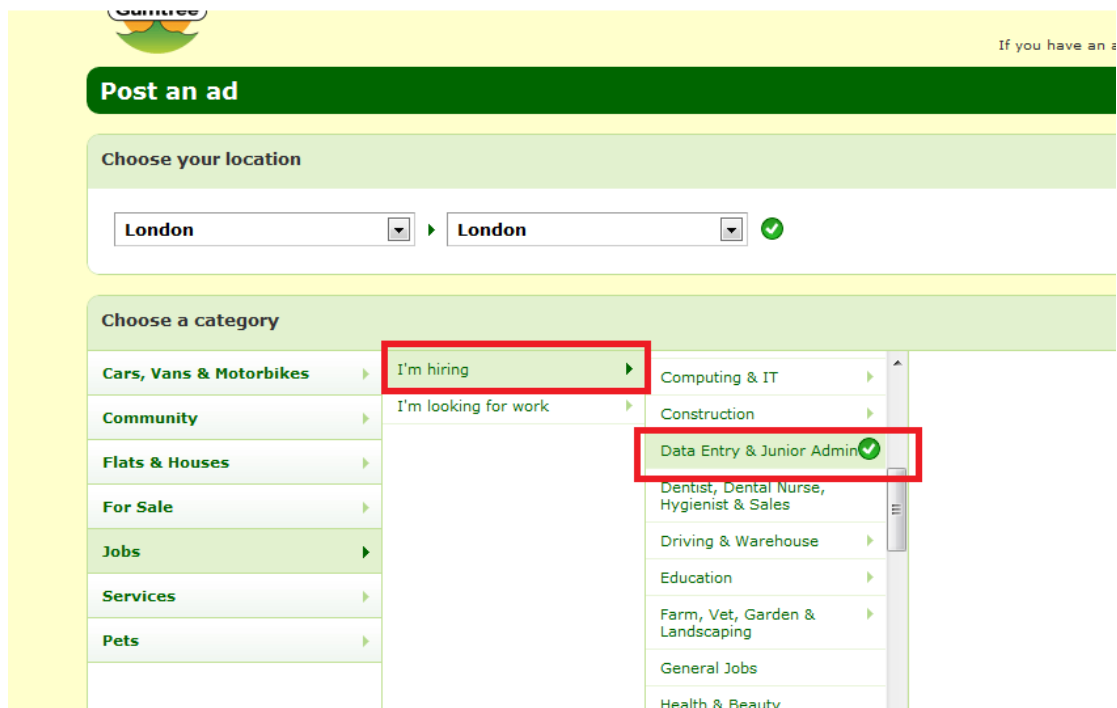

For example, Gumtree has a section for employers where they can advertise their services. They charge for this service but it would be the best investment you could make.

- Accounting
- Automotive & Engineering
- Babysitting & Nannies
- Banking, Settlements & Insurance
- Bar Staff & Management
- Caretakers & Handymen
- Chefs, Cooks & Kitchen
- Computing & IT
- Construction
- Data Entry & Junior Admin
- Dentist, Dental Nurse, Hygienist & Sales
- Driving & Warehouse
- Education
- Farm, Vet, Garden & Landscaping
- General Jobs
- Health & Beauty
- Healthcare
- Homecare & Special Care
- Hotel
- Housekeeping & Cleaning
- Marketing, Advertising & PR
- Media, Design & Creative
- Nursing
- Paralegal & Legal
- Part-time, Evening & Weekend
- Reception & Switchboard
- Recruitment Consultants

There are a ton of people who browse these sections on a daily basis, because they are desperate for a job.

Gumtree charge around £29.60 to post an ad in the job section for 60 days in the categories below.

The screenshot shows the 'Post an ad' section of the Gumtree website. At the top, there is a green button labeled 'Post an ad'. Below it, a section titled 'Choose your location' contains two dropdown menus, both set to 'London', with a green checkmark to the right. Further down, a section titled 'Choose a category' displays a list of categories. The 'I'm hiring' category is highlighted with a red box. To its right, a list of sub-categories is shown, with 'Data Entry & Junior Admin' highlighted by a red box and marked with a green checkmark. Other categories visible include 'Cars, Vans & Motorbikes', 'Community', 'Flats & Houses', 'For Sale', 'Jobs', 'Services', 'Pets', 'Computing & IT', 'Construction', 'Dentist, Dental Nurse, Hygienist & Sales', 'Driving & Warehouse', 'Education', 'Farm, Vet, Garden & Landscaping', 'General Jobs', and 'Health & Beauty'.

There are a ton of CPA offers for Data Entry. For example, take a look at the CPA offer below. This offer pays just over \$1.75 for a simple email address!

A CPA offer like this is ideal to advertise on job sites.

Here is an example of an Ad you could use.

"We are a marketing company who is looking to hire home data entry workers. If you are interested for this position please let us know by replying to this ad. We are giving away FREE CDs to prospects with details on how to go about in applying for this position and what it involves.

Once you reply to this ad a representative will get in touch with you with more details on how to apply for this position".

Once your ad starts generating replies simply ask their postal address and ship the CD.

The more people that reply to your ad the more chances of you making more money.

Both of the systems discussed in this report can be outsourced easily. Simply get people to post your ad in different cities in your country.

The CD method can be used to promote all kinds of different CPA offers. For example, dating, weight loss and other popular CPA offers.

I hope you enjoyed reading this RSO.
