

Facebook Story Method

BONUS Report

Imran Naseem

As promised I am going to reveal the types of CPA offers that work well with the CPA "story" method.

Dating Offers

These types of CPA offers are always going to work well with this method. There are a ton of guys and girls out there who are wanting to get back with their ex boyfriend or girlfriend. These types of CPA offers pay around \$5-\$6.00 for a simple sign up form.

There is a ton of PLR material you can take, and get someone to write a 300 word story on how a guy was able to get his ex back in just a week using the techniques he found in a XYZ dating system.

Weight Loss Offers

I already discussed this in the report previously but the majority of these offers pay around \$45-\$50.00 to anyone who orders a trial product etc. There is a huge market for weight loss and people cannot stop buying weight loss products.

Again, you can hire someone to write a story on how they lost weight, when there was no hope, using a magic formula they purchased.

MarketHealth.com has a ton of CPA offers for this market.

Bizz Opp CPA offers

There are a ton of these types of offers that are aimed at people who want to "work from home". You can easily target people who are looking for a job and you can turn this into a story.

You might want to get creative with this. Perhaps you could hire someone to write a story on a guy or a girl who got fired from their job and then they discovered an amazing system that enabled them to make lots of money from the comfort of their bedroom!

Again, people love reading success stories and you can turn this into a big success story too.

Beauty Offers

There are lots of different beauty related offers that are aimed at women. For example, if women want white teeth then there are lots of CPA offers for Teeth Whitening.

There are also offers for longer eye lashes, make-up and getting a tan etc.

Women are crazy about products in the beauty niche and you can easily have a success story here on how "woman A" was able to get rid of her scars using a special revolutionary new "cream" she purchased.

I hope you got lots of ideas now spinning in your head.
